Bandspeed Named 2008 XChange XCellence Award Winner

*Awarded as the Top Vendor in the Innovative Technology Category;
Named One of the 15 Hot Products from XChange Solution Provider*

Austin, TX - March 18, 2008 – Bandspeed today announced that it earned a 2008 XChange XCellence award during Everything Channel’s 2008 XChange Solution Provider in the category of Innovative Technology at an awards ceremony in Los Angeles, CA on March 8, 2008. The Bandspeed AirMaestro WLAN platform was also named one of the 15 Hot Products at the XChange Solution Provider 2008 Conference. The XChange XCellence Awards program is sponsored by Everything Channel’s *XChange Events* – Channel Events. Community Building.

Additionally, Bandspeed was a finalist in the following three categories at the awards ceremony: Best Hardware Solution, Best Business Technology Solution and Best XChange Appointment Presentation.

The *XChange XCellence Awards* measure overall business and technology integrator perceptions of vendor products and services during an XChange Event. XChange attendees evaluate and score each vendor’s presentation, message and presence throughout the four-day event. The results are tabulated on-site and awards are presented during the XChange XCellence Awards Luncheon presentation, at the conclusion of each XChange Event.

The 2008 XChange Solution Provider XCellence Awards cover 10 key categories, including an Overall Best in Show award. “The XChange XCellence Awards winners are selected by top solution providers at each event and honor the vendors with the most exceptional products, programs and technologies,” said Nancy Hammervik, Vice President, Events, Everything Channel. “Congratulations to all of the winning companies. They have demonstrated that they deliver high quality solutions and have many satisfied business partners.”

“Bandspeed is honored to receive this XChange XCellence Award for Innovative Technology, and recognition as being one of the top vendors at the XChange Solution Provider conference. The fact that we were nominated by top solutions providers make these acknowledgements even more meaningful to our team,” said Bill Eversole, president and CEO, Bandspeed. “Winning this award is validation of the increasing demand for Bandspeed’s complete, cost-effective and easy-to-use wireless LAN solution that meets the needs of the SME market.”

About Bandspeed

Bandspeed is the leader in next-generation Wi-Fi infrastructure solutions for the small-to-medium enterprise, delivering WLAN platform and management solutions that enable mission-critical Wi-Fi voice, data and video applications. Bandspeed AirMaestro is an 802.11 network solution consisting of a Wi-Fi CERTIFIED® AP and WLAN Management software. Bandspeed is privately held and headquartered in Austin, Texas.
